--------------	----------------	--------------	--------	---------------

Connecting Hyderabad's urban professionals with verified laundry facilities — scheduled pickups, real-time tracking, guaranteed delivery.

The Problem

Laundry is one of the most time-consuming and unreliable household tasks for urban professionals.

■ No Time	■ Unreliable Dhobi	■■ Inconvenient
Working professionals in Hyderabad spend 3–4 hours every week on laundry — washing, drying, folding, and ironing. That's 200+ hours a year lost to chores.	Traditional dhobis offer inconsistent quality , no order tracking, no service guarantees, and frequent no-shows — leaving customers frustrated.	Laundromats require travel, long queues, and cash payments . No pickup, no delivery, no way to plan around a busy schedule.

The Solution

WashGo connects customers with verified laundry facilities — scheduled pickups, real-time tracking, and guaranteed delivery.

■ Schedule Pickup in 60 sec	■ Real-Time Order Tracking	■ Quality-Guaranteed Delivery	■ Cashless Digital Payments
Book a slot, choose your service, and a partner arrives at your door.	Follow your laundry every step — from pickup to processing to delivery.	Every order is inspected before delivery. 100% satisfaction or we redo it.	UPI, cards, and wallets. No cash, no hassle, instant receipts.

Market Opportunity

India's laundry sector is vast and largely unorganised — ripe for tech-enabled disruption.

■ Only **8% of India's laundry market is organised** — the remaining 92% is served by informal dhobis and self-service. This represents **massive whitespace** for a technology-first platform like WashGo.

Business Model

Three complementary revenue streams built for high margins and recurring revenue.
